We want your feedback

Christophe • September 18, 2023

We're constantly learning and even modifying courses based on learner feedback. So we would love to hear your thoughts on this course as you go through it. You don't even have to finish the course to share feedback. Anytime a thought pops in your head that could help us improve, please share! You can comment under each lesson (there's a comment section in each lesson as you can see below this one), message on Discord, or email us for private communications at christophe@cybr.com

Thank you, and happy learning!

Christophe
